Fax: 916.263.3576

January 2, 2009

TO: Temporary Amusement Ride Owners/Operators

SUBJECT: Temporary Amusement Rides (TAR-09-1)

California Labor Code Section 7906 requires that a permit application be filed with the Division. A complete application must include the attached temporary amusement ride form S-692 (1), (2) & (3), and a complete insurance policy, enclosed with this letter is the TAR application packet. The forms are also available from our web site located at www.dir.ca.gov/DOSH/amusementrides.htm

All insurance communications and policies should be directed to the Certification Unit per TAR-09-4 Insurance letter.

Additional application forms and information may also be secured by contacting the Division of Occupational Safety and Health, Amusement Ride Section. The address or telephone number is indicated on the letterhead.

Rides for which an application for an inspection is not on file with the Division at least 10 days prior to operation will not be allowed to operate until a permit for 2009 has been issued.

Where an air tank is required to have a permit, the permit or a clear reproduced copy must be posted in a protective container in a conspicuous place on or near the tank as per Labor Code Section 7684. If a permit is required, your air tank must be permitted in order for us to permit your ride. If you need an air tank inspection you may contact the Pressure Vessel Unit by telephone in northern California at (510) 622-3066, and for southern California at (714) 939-0434. It is also possible to fax an inspection request form to either office. That form is also enclosed with this letter for your convenience.

Enclosed are TAR-09-2, TAR-09-3, TAR-09-4, and TAR-09-5.

Nancy Medeiros
Senior Engineer
Amusement Ride Section
